Sponsor a Child Project by Kansas Church

Respected Madam,

I am grateful for your generous heart and glad that you sent monetary support to Mahima International Christian School to educate a child. Today I would like to bring into your notice the child which the school has chosen to support and sponsor by the amount donated by the mission department of Kansas Korean Methodist Church.

The School has chosen Prachi Dalvi as the student to receive the sponsorship. Though she does not come from a Christian Family background but we believe that this will encourage her and also her parents to know how God works. Prachi belongs to a family of 5 where she, her 2 sisters and her mother & father stay together. It is really difficult to educate a girl child in India still her parents supported her educating up until now. This year they came to me and asked me to remove her name out and were transferring her to another school. Prachi is a bright students who other than studies loves to participate in various extra-curricular activities such as singing, dancing and more. Her results also as a students have been good.

The child needed encouragement and support from the school and I, as her teacher wanted to help this child for her future education. Among all the sisters in her family she has received good education and we pray and hope that this continuous for her.

Once again I would like to thank you and pray and hope for the blessings of Jesus to be always one each one of us.

Thanking You

Mr. Johnny Anthony
Secretary
